

Welcome to The Birth Centre

The Birth Centre is a dynamic centre for expectant and new parents in the centre of Amsterdam. Everything a pregnant woman or new parent needs is available in one centre: an obstetric practice, a birth hotel, a maternity care centre, a course centre, a clinic and a lactation consultancy. All medical services and courses are provided in one street. All the departments work together. Everyone is looking in the same direction and this builds trust and gives peace of mind for our clients.

On this website you can find information on the Amsterdam Birth Centre and you can register for a range of care and activities.
